Interactive Display

WAD series

Unlimited Learning Possibilities

Introducing the Interactive Display WAD series that provides an engaging educational experience. The Interactive Display WAD series is based on Android OS and provides a familiar and intuitive user experience. You can download and use major educational apps from Google Play. Additionally, major Google services such as YouTube and Chrome are installed by default and can be used immediately.

The WAD series makes the educational environment more convenient and efficient. It improves educators’ productivity with various functions and convenient usability. Now open a new era of education with the WAD series.

Key features

Powered by Android™

The WAD series offers familiarity to its users. It is compatible with other Android devices, providing a variety of widgets and an easily customizable home screen.

EDLA Certification

With an EDLA certification, the WAD series supports a variety of Google services. Download major educational apps through Google Play and use pre-installed apps like YouTube and Chrome to increase efficiency and enhance communication with students.

Powerful Screen Sharing

Users can share up to nine screens at once for maximum productivity. With this feature, content is shared between the large display and individual devices, and vice versa, to engage every student.

* Screen sharing is available on devices with the following conditions: Windows 10 and higher / Mac OS X 10.11 and higher / Chrome 38 and higher / Android 5.1 and higher / iOS 10.0 and higher

Device Management Solution

A device management solution is essential to advancing educational environments. This solution optimizes the remote management of whiteboard settings and apps, guaranteeing operational efficiency and stability.

*The cloud-based DMS solution is supported free of charge for one year. Pricing policy is subject to change. For further details, please contact your account manager. The WAD series provides an on-prem DMS solution, so customer can select as a solution suitable for the local network situation where the products are installed.

Superior Durability

The WAD series protects against electrical surges by using a ceramic fuse and 500V(DC) capacitor that absorbs instant spikes in voltage. It is also a valuable tool for schools in high humidity or rainy climates with anti-humidity glue applied to the critical areas of the chipset.

* The claims of enhanced surge and humidity protection for the WAD series are based on Samsung's internal testing.
